

## Home Learning Project – Week 14 – The End of Term

### Age Range - All Year Groups

#### Learning Project – to be done throughout the week

**As it's the last week of the school year, we thought it would be good to have some fun activities to enjoy. If you are continuing to work at home, you can email your work, photos or videos to your class teacher for them to share with their bubble!**

#### **A-Z of Beech Green**

Teachers, friends, lessons, trips – can you think of something or someone Beech Green related for every letter of the alphabet!

#### **Class Awards**

Celebrate the children in your class by giving out awards – can you think of one for every one? What can you celebrate about their personalities? Who is a good friend? Who gives the best hugs? The biggest smile? The best joke teller? What other ideas can you come up with?

#### **Plan A Socially Distanced Sports Day**

At this time of year, we would be making the most of the weather and taking part in Sports Day. This year has to be different – but we can still get outside and have fun. Plan some Sports Day activities which follow social distancing rules – keeping apart, and not sharing equipment. Try out the activities with your family – perhaps you could even make rosettes to wear to support your team!

#### **Wake and Shake**

We all love Wake and Shake – especially when Mrs Williams leads it! Let's give her a run for her money and make our own routines! Choose a favourite song (one that's appropriate for school!) and make up your own routine. If you are learning at home, send in your videos for us to see! You can use some of Mrs Williams' finest moves, or check out [www.gonoodle.com](http://www.gonoodle.com) for some inspiration.

#### **Design an OPAL playground**

Play is a big part of life at Beech Green, and we all miss being able to get outside and play with our friends. We can all look forward to the day when OPAL can be a part of our day. Watch [this video](#) of another school's lunchtime and use your favourite ideas to plan your own OPAL play time. Maybe you could draw a map of the play areas, and label what's in there. Think about all the wonderful things that we already have for our lunchtime play – don't forget to include them in your plan.

#### **My Dream Holiday**

Lots of people have had to miss out on holidays this year because of the Lockdown. So if you can't go on holiday, then plan a completely wild one! Let your imagination run away with you – you can go absolutely anywhere in the world... or beyond! Plan the ultimate holiday! You could record it any way you like - draw it, write about it, make a brochure, create a PowerPoint. There is just one rule – anything goes!

#### **Life After Lockdown**

We are beginning to come out of lockdown, and we are starting to be able to mix with friends and family. What do you want to do when all the restrictions are lifted? Where will you go? Who will you see? What will you do together? Make a list of all the things you want to do – and you can tick them off as you get to do them.

### **My Post-Lockdown Party**

How will you celebrate when you and your friends can get together? Plan out your dream party – if you could celebrate in any way you wanted, what would you do? Remember, it's a fantasy party, so you can do what you like! Plan the food, the music, the entertainment – and the guest list!

**Thank you so much for all your hard work over the last 4 months. Have a wonderful Summer holiday – we will look forward to seeing you all safe and well in September.**

**Additional learning resources parents may wish to engage with**

**Please check out the “Additional Resources for Home Learning link on [the school website](#) – new resources are added regularly.**

**Huge thanks to the Robinswood Academy Trust for these ideas**
